

NEW RELEASE ON AUTOMECHANIKA!

Prorange concept is build to match the increasing needs towards the car aftermarket decreasing billing time in there workshops. The cars have fewer faults and the services intervals are extended all the time. Our customer needs something new to offer there customers to increase the booking time in the workshop. Lahega Kemi AB has built a car care education system.

These are the features:

- A complete product assortment as, car wash, interior-, exterior- and special detailing Educational movies pointing into 15 critical areas
- A manual giving our customers a guideline how to do detailing and in what order
- Calculation sheets for investment, space management and work time per process
- A new state of the art education hall with two wash bays and two detail areas in Helsingborg Sweden
- All products in a European 24 language label
- Pre printed labels with risk fraises and hazarders codes applicable to extra sprayers
- An easy dispenser cap for the 1L bottles
- New car sales margin increasers as 2k paint- and glass-sealants
- A new dual headed orbital polisher with variable speed that covers light buffing and waxing

Welcome to visit us in Hall 9.1 booth D68 Automechanika Frankfurt am Main 2010 to see Prorange and our Car Wash concept – Washeye.
